Re: Junior Application Developer

Dear Hiring Manager,

I am thrilled to express my interest in the Junior Application developer position at ATCO Stuctures, a team driven to help Canadians be successful in the ways that mean the most to them. My experience working in service and developing innovative technical solutions throughout my studies and work experiences have provided me a strong foundation for the role. Here is a summary of the value I bring on as a team member, which is aligned with ATCO Stuctures's vision and values:

- **Continuous Learning:** After finishing my diploma at Sheridan, I have actively completed additional certificates on UX/UI Design from Google and taken a software development BootCamp from BrainStation, helping me become a well-rounded developer in my career.
- **Team Collaboration and Communication:** Through my 3+ years in the service industry, I have developed strong communication skills working with large teams and managing multiple deadlines simultaneously. I have learned that ensuring team members have been communicated goals and expectations is key to great teamwork.
- **Technical Problem Solving:** During my studies at Sheridan and BrainStation, I have completed 20+ technical projects where I had to demonstrate my ability to work with databases and tools such as SQL, and MySQL to analyze data which can help the business or person involved. Experiences in working with the modern languages Javascript, React.js, Node.js, Express.js , APIs, and following the CI/CD pipeline to build websites, which are beneficial to businesses.

*** I am proud to share some of my works on my portfolio.

I am excited for the opportunities that come with adding immense value to ATCO Stuctures while also becoming the professional I aspire to be in the workplace. Thank you for your time and consideration and I look forward to hearing back from you soon.

Sincerely,

Jenny Le
